Load Roller Tandem (mm)	58 x 34
Size of Fork (mm)	160 x 60
Overall Fork Width (mm)	540
Fork Length (mm)	1150

This special purpose range of **Low Profile Pallet Trucks** is designed to operate with low clearance pallets and disposable pallets which are increasingly common in containers which have been loaded by conventional forklifts. Available with 36mm and 55mm lowered height !

An entry roller is fitted at the tips of the forks in addition to all our trucks being supplied with **Tandem rollers** and opposed to Single rollers supplied by some companies.

Tandem rollers help spread the load and reduce ground contact loading by 50%. This makes it **easier to move heavy loads** on the truck resulting in **less strain for the operator**.

Pallet Compatibility

Open Boarded

Closed Boarded
